

Monaro High School Scripture Report
October 2015

Scripture at Monaro High School has been going well. The year 7 and 8 students that attend have been great to teach and apart from the occasional disturbance in class the lessons have been a pleasure to teach.

Overall the attendance of the classes has varied from week to week. Some of the lessons have been well attended and other times the lessons have been poorly attended or not at all by some of the roll classes. There has been no particular reason given as to why this is happening and the staff of MHS do not really feel that it is a major issue for them to address.

Year 7 have been a good group of students to teach and their overall attitude towards the lessons has been good. I have been able to build a good rapport with some of the students, which has continued from teaching scripture in the primary schools.

Year 8 have continued in much the same manner as they had last year and continue to be fairly attentive in the classes and participate in the lessons well.

Prayer points

- For continued favour with the teachers and the staff of MHS
- For the students to continue to ask questions and explore the ideas and questions that are raised in class.
- For guidance in preparing lessons and how I can best interact with the students.

I would once again like to thank everyone for their support, both financial and in prayer.
