

## **Monaro High School Scripture Report** **David Reading - July 2016**

Scripture at Monaro High has been going well. There have been a few ongoing issues surrounding timetabling for both the year 7 and 8 classes. This issue has been addressed and will hopefully be cleared up and things will improve this semester.

I finished off the term with the annual Generate conference, which was informative and helpful in some areas that have been deemed “sensitive issues” in the past.

It was also the official launch of the new curriculum that has been developed by Youthworks and released through Christian Education Publications (CEP) titled *Think Faith*.

This new curriculum will be implemented into Monaro High this semester.

### **Year 7**

The year 7 students have settled in well to the class and having taught most of them in SRE at either Cooma Public or Cooma North has allowed me to have a good understanding with them and a respect level that helps in managing the class rooms.

The student’s biggest struggle has been around the communication of when their classes are timetabled. This is a flow on from the timetabling issues mentioned earlier.

The students are responding well to the lessons that are being taught and on the most part are actively participating in the discussions that are being had.

### **Year 8**

Year 8 students have continued in much the same manner and are involving themselves well in the classes and discussions.

The same issues are affecting Year 8, the communication of when classes are scheduled and where they are to be happening.

The students themselves are well behaved most of the time and are not scared in voicing opinions or asking questions that arise during the lesson.

### **Prayer Points**

- For the implementation of the new curriculum to run smoothly for both the students and myself.
- For the communication pathways in MHS to be clear and smooth.
- For the Students that they will hear the voice of God and be willing to respond to his calling.
- For connections to be made by the students to the youth groups and churches that are in Cooma and the surrounding region.

Thank you for your prayer and support
