

Monaro High Scripture Report 3-11-16

Term 3 at Monaro High had its ups and downs with student numbers and also it taking time for the timetable to be sorted out once again.

I have been able to continue building good relationships with the students and have been able to direct them to the youth groups that happen in Cooma.

The implementation of the new curriculum has been going well. It has been a transition for the students that they have adjusted to fairly well, as there is quite a significant change from how I would run lessons before the introduction of the new curriculum.

Year 7

Scripture with the year 7s has been going well and the relationship that was built from previous years has continued to improve in term 3. The change in curriculum was accepted well and the students have been able to connect with the new material and the discussion that has happened has been engaging and productive.

Attendance for year 7 has up and down this term.

Year 8

Year 8 has also adjusted well to the new curriculum that was introduced. The discussion hasn't been as free flowing with yr 8 as it has been with yr 7.

The students have been participating well yet it feels that they are only doing what they have to.

Attendance from the yr8 students has been better than that of yr 8, however at times numbers has also been down on what it should be.

Prayer Points

- That as we go into the last 5 weeks of Scripture for this term that I will be able to continue building the relationships with the students
- That we can facilitate a smoother start to 2017 school year.
- That I can find the best ways to interact with each of the students so that they understand the love that God has for them.
- That the teachers and staff will continue to see the value of SRE and support it in all facets in the school

Thank You and God Bless
