

January 2017 Monaro High School SRE Report

Hi and Welcome to 2017.

Firstly I would like to thank everyone for there support, both financially and in prayer, for the work of SRE in Monaro High School.

As the school term for 2017 has just begun I am still in the planning stages with the school regarding timetabling of classes and the students that will be participating in SRE this year.

The first term can be very daunting for many students, especially those that have made the move up from primary to high school. It is a completely new experience for them and is very much out of their comfort zones to begin with.

As I am yet to have classes timetabled I am unable to comment on the progress of students and how that is going.

Prayer points.

- **For the timetabling to be smooth and quick**
- **For the students who will be participating in classes**
- **For the staff of Monaro High**
- **For myself as I prepare lessons and instruct classes**
- **For the students that no longer have SRE**
- **That SRE will be seen as a valuable part of the education system**
- **For Generate Ministries and the work that they do.**

Thank you all for your support and I pray that as you support and bless this ministry in Monaro High that you to will find the support that you need.

Thank You and God Bless

Ps. David Reading
