

Monaro High School
SRE Teachers Report
September 2018

After attending the 2018 Generate Conference in July I introduced a new curriculum from Peacewise Kids about how to be a peacemaker in our lives and to deal with conflict. It began with recognising that conflict is part of our life everyday and in many different forms., it looks at roadblocks to peace and in that how we can look to the creator of all in how we can deal with conflict and bring peace into our lives. With the new curriculum I have been able to use this for both year 7 and 8

Year 7

Year 7 have been going really well this term, I have found that numbers have increased over the month with more students attending each lesson.

The students have been interacting well with the new curriculum and have been dealing with some of the issues that have been raised in their own lives through the topics covered in each classes lesson.

Year 8

Year 8 have also been going really well in this new curriculum. Student numbers have been increasing as well.

Each topic covered in the class has allowed the students to look at how the deal with conflict in their own lives and within peer groups.

Prayer Points

- continued blessing within the high school with students and staff
- Monaro high is getting a new principal so please pray for a strong leader who is positive towards SRE and chaplaincy.
- Pray for the staff and the students.

Thank you for all your prayer support and financial support in the work of SRE in the Monaro High. Without you support SRE would not be happening.

Thank You and God Bless
