

SRE teachers Report
Monaro High School

Wow, what a year 2020 has been. With the restrictions that have been imposed due to Covid-19 there has been a lot of disruption to students and teachers and the whole community.

Because of the restrictions there has been no face to face teaching with the students of Monaro high since week 7 of term 1. The restrictions are ongoing at this time and even though students are returning to face to face studies full time as of the 25th of May SRE is not returning as of yet. The prediction for SRE to return is still unknown as the department of education is trying to limit the number of non-essential people involved in class activities.

During this time of have been dong some personal development and required courses that help me to be active in the school.

I have been in discussion with the school directly as to when SRE may return however their hands are tied by department policy and restrictions.

Please continue to pray for all the students and teachers as they attempt to adjust to school life post-Covid and also work around the school development.

Thank you for your continued support and prayer in this time and for the future of SRE in all NSW high schools and primary schools.

Thank you
